

CONTRACT 10.5mm

Type A ropes with the best quality/price ratio.

Standard: CE EN 1891 - Type A

Weight : 66 g/m

Material : Polyamide

Breaking load : 2700 kg (daN)

Resistance with 8 knot : 1600 kg (daN)

Strength with sewn termination : - kg (daN)

Elongation under 50/150kg : 2,9

Percentage of sheath : 39

Core percentage : 61

Sheath slippage : 0

Water shrinkage : 3,3

Number of drops factor 1: 5

Impact force (factor 0.3): 5.5 kN
